PRESIDENT'S REPORT

Ralph Czabayski (Jnr)

Club President

Dear Members,

Welcome to the first edition of the pointer for fishing season 2016/2017.

The fishing season has started off slow with not many recordings from our members. I am sure this will change as the weather is finally getting better.

We just completed the Cape Jervois challenge. The first weekend was a wash out due to the bad weather, but the second weekend saw three boats fishing and recording fish. Thanks to Mick Dawe for the use of his house and to Steve Morris, Kym Gabe and the committee for helping to organise this challenge.

On the 13th of November 2016, we had the Pt Lincoln Christmas show. There were approximately 35 adults and 10 children who attended. The day was a great success for the club. Father Christmas made an appearance and gave out presents to the excited children. Thanks to Russell and Gabriella for hosting the party at their house. What a great day and night it was. Everyone got into the Christmas spirit with plenty of celebrating. Again, thanks to Russell and Gabriella for their generosity towards the Christmas show and to all the people who donated wine, the pig on the spit and all the delicious pizzas that were continuously being made and supplied all night.

The next function coming up in the calendar is our Adelaide Christmas show at the Royal Yacht Squadron. I look forward to seeing everyone there.

The new editor of the pointer is Lee Van Soest and I am sure you will all agree with me, what a great job she has done on the first edition of the pointer for season 2016/2017.

I would like to wish everyone a Merry Christmas and a happy new year. Hopefully over the Christmas break you get some fishing in and lodge plenty of recordings.

The Club is in good shape financially and has no debts apart from daily bills.

A reminder, if anyone is interested in taking out any advertising in the Newsletter or becoming a Sponsor of the Club please contact myself on 0419 834 540 or Alex on 8266 7703. In the event you need anything done around the house or your business, look at supporting our advertisers and sponsors by giving them your business.

Enjoy this next edition of The Pointer and try to remember to support any aspect of this great Club. Remember, if you have any pictures or stories you would like to share in our Newsletter please email Rolf Czabayski (rolf@esc.net.au) or Lee Van Soest (leeensoest@bigpond.com) with your input.

Tight lines and Happy Fishing.

TREASURER'S REPORT

**Financial Report for the Members of
The Game Fishing Club of SA, Inc
July to October 2016**

Steve White
Club Treasurer

Summary

The Game Fishing Club of SA, Inc, continues to be financially sound and well managed with strong cash reserves, good cash flow and no debts other than day to day operating costs.

Profit and Loss

Revenues for the period 1/7/16 to 31/10/16 were in excess of \$50k and comprised of Membership Dues of \$16k, Advertising and Sponsorship income of \$26k, Function Fees of \$6k and miscellaneous items including stock sales making up the balance. Stock Cost of Sales of \$1.5k were recorded during the period. Gross profit was \$49k.

The main expenses during the period were Club Affiliation Fees (\$3k), Clubroom Rent (\$9.5k to RSAYS), Function Expenses (\$5k), Postage and Office Costs (\$2.5k) and Trophies (\$3k). Total expenses were \$25k. The Club therefore has a surplus year to date of \$25k.

Balance Sheet

The Club has added to its strong cash reserves for the eventual purchase of land at RSAYS. Term deposit is now \$125k and the Adelaide Bank account held \$31k. Debtors were \$3k. Trophy stock was \$2k and Stock for Sale was \$24k. There were no liabilities.

Conclusion

All but one debtor balance (in dispute) has been cleared at the time of writing this report.

No significant change is expected to the Club's overall financial position for the remainder of the financial year.

WEIGHT RECORDER'S REPORT

Wayne Greenshields

Weight Recorder & Assistant Secretary

Greetings All,

The 2016-17 Season is now underway and recordings are slowly trickling in.

Make sure to check out all recordings listed and regularly updated online at the clubs website under the **Current Fishing/ Results** tab at the top of the home screen.

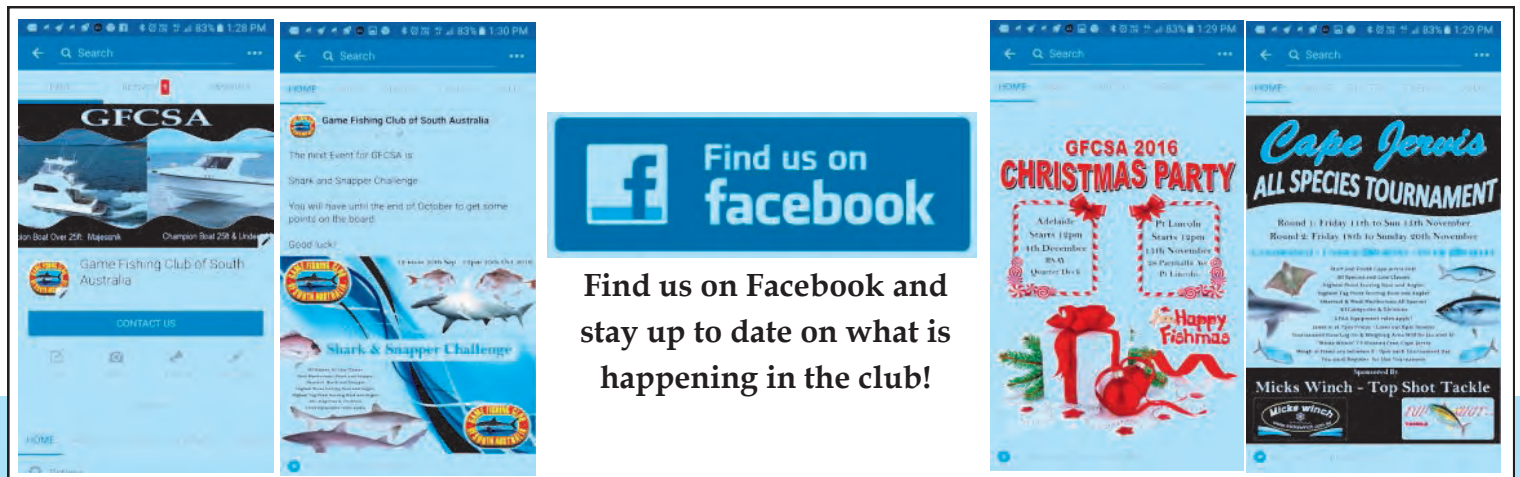

Shaun Ossitt, Jason D'Angelo, Andrew Donhardt had a great season on the Yellowtail Kingfish at Port Augusta, Still no line class capture but great to see the tag and release system working well

Lee Van Soest with the first of the boat based salmon coming in from her recent trip to Kangaroo Island.

Russell and Gabriella fishing on board Majessnik have recorded some nice fish so far with some big Samson Fish on 4kg Line (19.30kg). Great to see these types of recordings while we all await the arrival of the Tuna in the offshore waters of Port Lincoln.

Land Based recordings have come in from myself cleaning a few more carp out the river system and Michael Plakakis with some very nice Salmon and having a ball on light line doing so.

Good luck and tight lines

Big Thanks to Micks Winch for
the hospitality!

Thank you to all of the members who attended the Cape Jervis All Species Tournament. Thanks must also go to Micks Winch and the Cape Jervis Community Club for your hospitality. Unfortunately there was lots of Fishing, but not much catching going on with only 1 recording taking place.

After an endless night of snoring going on, the alarm clock woke us at 5am. One look outside told us that the wind was going to be an issue today. Bags were packed and the boats all launched. We all took off in different directions. Fish hunter started trolling around the breakwater, Rasco took off around the corner to catch some bait, then off to American River. Team Micks Winch headed out towards the Island looking to snag a shark. What they found were a couple of decent sized snapper (which had to go back) because of the ban. Unfortunately the fish just weren't biting for most teams and there were no recordings that day. Sunday morning dawned a lot better weather wise and all Teams decided to head out to troll around hoping for some Tuna action. But the water temp was still too cold for much hope of them. Mick and Jerry both hooked up to some Kingfish, but were non line class. Again, not much biting out there. So the boats all took off for a troll around the Pages for a shot at the Salmon. Around and around... nothing happening. Getting closer to the end of the day, everyone wanted to head back in. There were a couple of birds diving so Fish Hunter took off and managed to hook a Salmon on 2kg line! Finally someone had a fish!

Ralph Czabayski

Was lucky enough to hook up to this magnificent fish on a recent journey to Cairns. Unfortunately the fish snapped the leader after an hours fight. A video can be seen on the GFCSA Facebook page

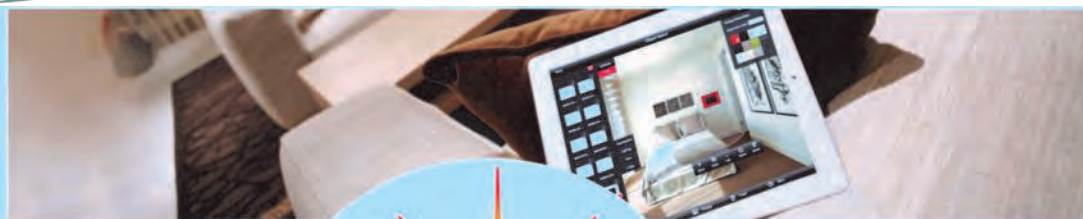

www.stlouisagedcare.com.au

GFCSA MEMBERS

Any GFCSA Club Member with a Trailer Boat wishing to use the excellent and secure Boat Ramp facilities at RSAYS can do so by obtaining the necessary passes & permits from the RSAYS reception Office during business hours, for the cost of only \$321.00 per year. You must present your current GFCSA membership card to do so, front gate access keys can also be obtained at the same time for \$25.00 per year, this along with your Launch permit will give you and your vehicles full 24/7 access to the boat ramp and facilities within the club grounds.

"Well worth the cost, just for the added security of knowing your gear is safe & cheap when you consider the alternatives and costs of using public boat ramps with on security especially if you use your boat on a regular basis.

MAKE YOUR RECORD COUNT

Article Credit: IGFA

So you caught the fish of a lifetime, maybe the fish of all time. You weigh it, photograph it, and hopefully release it, and sure enough - the fish proves heavier than the existing record. Immediately you start day dreaming of round and round of beer bought by pals to congratulate you. The sad truth, however, is that just because the fish you caught is heavier than the existing record, it in no way guarantees it will be listed as a record. Too often an angler is deprived of earning his or her place in the record books because like any sport, fishing has rules and ethics and it is so much

The Most Common Reasons Anglers Lose Their Shot At A Record

Failing to provide
enough photographic
documentation

Using line that
over-tests

Allowing someone
else to touch the
angler, rod or
line during
the fight

Using a leader
that is too
long

Fish must be
weighed on land &
scales must be
attached to a
fixed object

Submitting a
mutilated fish

Fish being weighed
on uncertified
scales

Using a non-
compliant brag
mat

Violating local
fishing laws

BROOME

What's On Offer During The Wet Season

From December to March the wet season is in full swing in Broome and it is the best time to fish the surrounding creeks throughout Roebuck Bay. The bay has 6 main creeks and 40km's of tidal flats to fish. In early 2014 the government bought out the commercial gill-netters in the bay and since then the fishing has exploded!

On neaps tides Barramundi are the target. We use a variety of methods depending on conditions and water clarity, but trolling hard bodied lures and live baiting produce our best results. As the tides build into springs (with a range of up to 10 metres) we start fishing the shallow mud flats as the tide races in. Threadfin Salmon and Black Jew fish are in our sights here. Casting soft vibes gets excellent results from the Threadfin Salmon, which use their whiskers so sense slight vibrations in the dirty water. Other species are encountered along the way including Triple Tail, Golden Trevally, Queen Fish and many more.

Typical weather during the wet is hot, calm and sunny mornings followed by an afternoon sea breeze of around 15knots. Often late afternoon sees the build up storms roll in and we get a cool change from the rain. At this time of year we usually set off around sunrise and return back to Broome by about 2pm to avoid the worst of the heat. If catching a Barra is yet to be ticked off your bucket list, then make getting up to Broome during the wet season a priority!

GAME FISHING PTY LTD.

Through use of a new Contender 30' ST sportfishing boat, top of the range gear and tackle, expert local knowledge and innovative new techniques, we strive to create a fishing experience that you will never forget!

Rolf Czabayski (Snr)

IGFA Representative

Hi All,

Before I let you know a little about IGFA, IGFA and I would like to wish you and your Families a very nice Christmas and a good and prospers New Year. May you catch some good Fish and claim your next World Record.

Where in the World is the IGFA?

IGFA Members and representatives reside in nearly 150 countries and territories around the globe. IGFA Headquarters may be in Florida, USA, but there activities and programs take place worldwide. Check out the calendar to see when and where you can find IGFA next!

When you are a Member you can find the calendar in the last IGFA newsletter . If you are not and would like to become a member is only A\$50-00 per year, please ring me on 0408 364 488 and I will sign you up.

The 33rd IGFA International Auction & Banquet

Saturday January 28 ,2017

Can't join IGFA in person for the big event? Get in on the Auction action online! Preview auction items and begin placing your bids in the online portion of the event, which will continue in real-time through the Annual AUCTION & Banquet. Stay tuned to www.igfa.org for the launch of the auction online.

Join IGFA largest fundraiser and social event of the year, now on a Saturday! You will have the chance to bid on one-of-a kind trips, boats, tackle, artwork and much more in the live and silent auction.

For more information go to:
igfa.org/Events/Auction2017.aspx

Marry X-Mass

RULES & REGULATIONS

The image displays three GFAA forms. On the left is the 'GFAA Australian Record Application' form, which includes sections for 'BOAT (if used)', 'WITNESS TO THE WEIGHT', 'WITNESSES TO CATCH', 'METHOD OF CATCH', 'EQUIPMENT', 'SPECIES MEASUREMENTS', and 'SPECIES'. In the center is the 'Statutory Declaration' form, which includes a declaration section and a 'Check List' for recording details like 'CHECK GFAA RULES', 'CHECK SPECIES', 'CHECK FOR MUTATIONS', 'LINE (ONE PIECE 15M)', 'DOUBLE LINE/OK', 'LEADER LENGTH OK', 'HOOK ARRANGEMENT OK', 'ADD A REEL OK & MEASURED', 'SWAGS CHECKED & MEASURED', 'REELING', 'SCALE (WEIGH LOWER PRELIMINARY NET WEIGHT)', 'CAPTURE CERTIFICATE OK & ENCLOSED', 'PHOTOS', 'FISH IDENTIFICATION POSITIVE', and 'FISH ENCLOSED'. On the right is a 'Check List' table with columns for 'Angler', 'Weight', 'Club', 'State', and 'GFAA Remarks', and rows for various fishing details.

Preparation Of A Record Claim

At the time of weighing a fish, all tackle and equipment used in the capture, including gaffs, leader/trace, lure and a sample of line are required. An application for an Australian Record must be made on the prescribed form which is available to print from the GFAA website. The form must be completed in full and include the following:

1. The name, address and signature of the angler
2. The date and approximate location of the capture
3. The gross weight of the fish, the short length of the fish (measured from the point of the lower jaw to the crotch of the tail) and the maximum girth measurement (at the thickest part of the body, usually behind the pectoral fin). Extreme care should be exercised in measuring the fish as the measurements are often important for other scientific studies. (A measurement diagram is shown on the Application Form).
4. The length of the double line. Length of trace, type of lure, number of hooks used, and the type of hooks used in the capture.
5. The specific strength of the line used to catch the fish will place the claim in a GFAA line class category. If the line over-tests for its particular class category, the application will be disallowed. If the line under-tests, the application will not be considered for the lower line class category. The heaviest line strength permissible is 60kg.
6. The signature of the boatman or fishing companion as witness that the fish was caught by the angler on the tackle described in accordance with the GFAA Angling Rules and Equipment Regulations.
7. The Application must be forwarded to the Recorder of GFAA through the State Branch (In our case please hand in all forms to the GFCSA Weight Recorder) in whose waters the capture was made and must be accompanied by:

A: A Statutory Declaration stating that the Rules and Regulations of GFAA were strictly observed in the capture.

RULES & REGULATIONS

B: The entire leader, the double line, and at least 15mtrs of the single line closest to the double line, leader and hook. All line samples and the leader (If one is used) must be submitted in one piece. If a lure is used with the leader, the leader should be cut at the eye attached to the lure. Clarification: The leader must be submitted in one piece with the hook attached, if a lure is to be removed then the leader should be cut on an angle at least 25mm above the eye of the lure so that both pieces of the leader can be re-joined to check the length. Note: Each line sample must be in one piece. It must be submitted in a manner that can be easily unwound without damage to the line. A recommendation method is to submit the line on a piece of stiff cardboard. Write the anglers name and the specific strength of the line used on the cardboard. Do not submit the line in a hank. Any sample submitted that can't be unwound will not be accepted.

C: All Applications for Fly fishing records must be accompanied by the lure, the entire tippet and the entire leader along with 25mm of the fly line beyond the attachment to the leader. These components must be attached and connected. GFAA no longer requires that 25mm of the fly line be attached to the leader. If a loop to loop connection is used, the angler need only unloop the leader from the fly line and submit it with the record application. The entire, leader however must still be intact with the fly attached.

D: Photographs showing the full length of the fish, the rod and reel used to make the catch, and the scales used to weigh the fish. A photograph of the angler with the fish is also required. So that there can be no doubt about the species identification, the clearest possible photos should be submitted. This is especially important in the case of marlin, trevally, shark, tuna and other fishes that may be confused with similar species. Shark applications should also include a photograph of the shark's head and the front teeth. Photographs should be taken of the fish in a hanging position and also laying on a flat surface on its side. In both types of photo no part of the fish should be obscured. When hanging, the fish should be broadside to the camera with the fins fully extended and with the tip of the jaw and sword or spear clearly shown. Do not hold the tip of the fin. Do not hold the fish in your hands. A sky background of the fish is most desirable. Backgrounds cluttered with objects and people may complicate identification and detract from the photograph. When photographing a fish laying on its side, the surface beneath the fish should be smooth, with a ruler or marked tape placed beside the fish if possible. Photographs from various angles are most helpful. An additional photograph on the scale with actual weight visible helps to expedite the application. Photos taken during daylight are highly recommended.

E: Where a two hook rig was used, a photo or tracing of the actual hook arrangement indicating measurements.

F: Where a plug or artificial lure was used, a photograph of the plug or lure, indicating the measurement. If this is not completely satisfactory the plug itself may be requested.

G: Applications for Australian Freshwater and Saltwater Fly Rod Records shall be on the same basis as applications for other GFAA Records.

H: Where a capture is the subject of a claim for both a World and an Australian record both appropriate filling fees are payable. GFAA shall issue a certificate for each capture which is approved as an Australian Record, or a tie for Australian Record.

For more information, or a copy of the Application Forms please visit the GFAA website.

Steve Morris
Technical Advisor

The Committee has asked me in my capacity as the Club Technical Advisor to do a regular Pointer Report to help our anglers understand the GFAA Equipment and Angling rules. This will be done by way of translating them into straight out layman's terms so we all understand what the actual intent of the wording means.

I will first quote and reference to the actual GFAA Rules one by one accompanied with the highlighted layman's version there after of what that rules intent and meaning is. Starting with this issue and then continue on over the following issues of the Pointer Magazine. To lead off I have first quoted Part (1) of the section of the GFAA ethics, followed by Part (2) the start of the Angling & Equipment Rules analogies.

Rules and Equipment Regulations Section

"RULES & REGULATIONS & ELIGIBLE SPECIES" Quoted source REF (www.gfaa.asn.au) under:

Part 1. Angling Ethics

The Angling Rules and Regulations have been formulated to promote ethical and sportsmanlike angling practices, To establish uniform regulations for the compilation of Australian Gamefish Records and to provide basic angling guidelines for use in fishing tournaments and any other group angling activity.

The word 'Angling' is defined as catching or attempting to catch fish with a rod, reel, line and hook as outlined in the GFAA Angling Rules and Equipment Regulations. However, there are some aspects of angling that cannot be controlled through rule-making. Angling rules cannot ensure an outstanding performance from each fish and Australian records cannot indicate the amount of difficulty in catching the fish.

Captures in which the fish has not fought or has not had a chance to fight do not reflect the credit on the angler, and only the Angler can properly evaluate the degree of the achievement in establishing the record. Only the fish caught in accordance with GFAA Australia Angling Rules and within the intent of these rules will be considered for Australian records.

"ANGLING RULES" Quoted source Ref: (www.gfaa.asn.net) under: **Part 2 Angling**

GFAA RULE 1. From the time a fish strikes or takes a bait or lure, the angler must hook, fight and land or boat the fish without the aid of any other person, except as provided for in these regulations.

(CLARIFICATION to ANGLING RULE 1.) If the mate is letting out a bait or lure and the reel is in free spool, the rod can be put back in the cover board or handed to the angler. Under no circumstances can any drag be put on the reel. This situation is legal. The rationale is that the hook has not been set with the reel out of gear. When retrieving a bait or lure the fish would be disqualified immediately if the rod is put back into the cover board or transferred to another person as the reel is in gear and the hook has been set.

Layman Interpretation: All ready clarified by GFAA. Should be self explanatory.

GFAA RULE 2. If a rod holder is used and a fish takes the bait or lure, the angler must remove the rod from the holder as quick as possible.

Layman Interpretation: This means straight away! Not when it suits you or after landing another fish.

GFAA RULE 3. In the event of a multiple strike on separate lines being fished by a single angler, only the first fish fought will be considered for an Australian record.

Layman Interpretation: This means that the second fish caught does count for points or records as it is in breach of Rule 2.

TECHNICAL TALK

GFAA RULE 4. If a double line is used, the intent of the regulations is that the fish is to be fought on the single line for most of the time that it takes to land the fish.

Layman Interpretation: The fish must be hooked by the Angler & is fought on the main line, not the double or leader. Is the leader is grabbed by the mate while the angler has the rel in free spool it would be deemed in breech of the rules and will not count for points or records.

GFAA RULE 5. The harness may be replaced or adjusted by a person other than the Angler.

Layman Interpretation: At no time should any other parts of the Anglers equipment be touched. Eg: any part of the rod, reel or line. Either on purpose or by accident. Either one would be deemed in breach of the rules and would not count as points or records.

GFAA RULE 6. Use of a rod belt or gimbal is permitted.

Layman Interpretation: Same as Rule 5. At no time should any other parts of the Anglers equipment be touched. Eg: any part of the rod, reel or line. Either on purpose or by accident. Either one would be deemed in breach of the rules and would not count as points or records.

GFAA RULE 7. When angling from a boat, once the leader is bought within the grasp of the mate, or the end of the leader is wound to the rod tip, more than one person is permitted to hold the leader.

Layman Interpretation: Until the leader is in the hands of a mate, no part of the Anglers equipment should be touched. Eg: Any part of the rod, reel, double line, either on purpose or by accident. Either would be deemed in breech of the rules and would not count as points or records.

GFAA RULE 8. One or more gaffers may be used in addition to persons holding the leader. The gaff handle must be in hand when the fish is gaffed.

Layman Interpretation: Should be self explanatory.

GFAA RULE 9. The Angling Rules and Equipment Regulations shall apply until a fish is weighed.

Disqualifying Acts and Situations

Quoted source Ref: (www.gfaa.asn.au)

1. Failure to comply with equipment or angling regulations.
2. The act of persons other than the angler touching any part of the rod, reel or line (including the double line). Either bodily or with the any device during the playing of the fish, or in giving any aid other than that allowed in the Rules and Regulations. If any obstacle to the passage of the line through the rod guides has been removed from the line, then the obstacle (whether berley, float line, rubber band or other material) shall be held and cut free. Under no circumstances should the line be held or touched by anyone other than the angler during this process.
3. Resting the rod in a rod holder, on the gunwale of the boat or any other object while playing the fish.
4. Hand lining or using a handline rope attached in any manner to the angler's line or leader for the purpose of holding or lifting the fish.
5. Shooting, harpooning or lancing any fish (including sharks) at any stage of the catch.
6. Burleying with or using as bait the flesh, blood, skin or any other part of mammals other than hair or pork rind used in lures designed for trolling or casting.
7. Using a boat or device to beach or drive a fish into shallow water in order to deprive the fish of its normal ability to swim.
8. Changing the rod or reel while the fish is being played.
9. Splicing, removing or adding to the line while the fish is being played.
10. Intentionally foul-hooking a fish.
11. Catching a fish in a manner that the double line never leaves the rod tip.
12. Using a size or kind of bait that is illegal to possess.
13. Attaching the Angler's line or leader to part of the boat or other object for the purpose of holding or lifting the fish.
14. Is a fish escapes before gaffing or netting and is recaptured by any method other than as outlined in the Angling rules.
15. The act of any person touching any part of the leader when striking or hooking a fish
16. When a rod breaks (while the fish is being played) in a manner that reduces the length of the tip below minimum dimensions or severely impairs its angling characteristics.
17. Mutilation to the fish, prior to landing or boating the catch, caused by sharks, other fish, mammals or propellers that remove or penetrate the flesh. (Injuries caused by leader or line, scratches, old healed scars or regenerated deformities are not considered to be disqualifying injuries). Any mutilation of the fish must be shown in a photograph and fully explained in s separate report accompanying the record application.
18. When a fish is hooked or entangled on more than one line.

Steve Morris
Technical Advisor

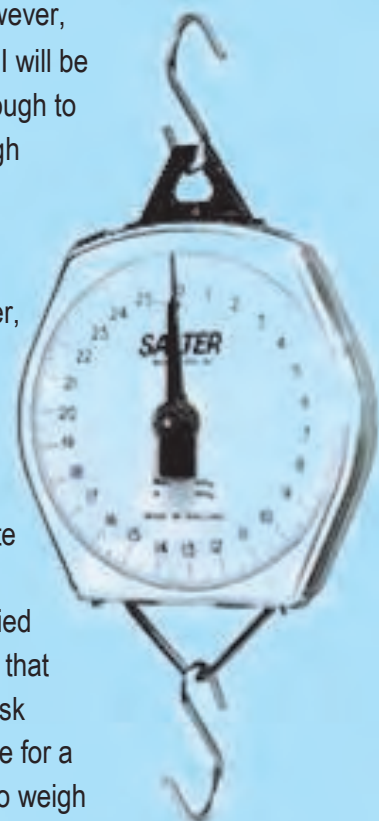

Can I Certify My Scales AFTER Weighing a Potential Record?

Question: I will be going fishing next week in pursuit of an Record. However, I just realized that my scale has not been certified within the past year, and I will be unable to have it re-certified before embarking on my trip. If I am lucky enough to catch the right fish, would it be within the rules for me to properly weigh and document the fish, and then send in my scale for certification, after the fish has been weighed?

Answer: This a great question and one that many anglers encounter, whether they are actively pursuing a Record or not. First of all, IGFA requires that "all scales must be regularly checked for accuracy and certified in accordance with applicable government regulations at least once every twelve months." In other words, the scale must be certified every year. That said, IGFA rules also state that "if at the time of weighing the fish the scale has not been properly certified within twelve months, it should be checked and certified for accuracy as quickly as possible." However, anglers should be aware that if they weigh a fish on a scale that is out of certification, they run the risk of the scale not checking out, in which case, the catch would not be eligible for a World Record. If you should find yourself in this situation, it is a good idea to weigh the fish on another scale, if possible. That way, you have a back-up in case the original scale cannot be certified.

3KG PINS WILL BE AVAILABLE SOON. WATCH THIS SPACE!

Don't forget... you must weigh your fish on Land to qualify!

MERIT PINS FOR CAPTURE

Merit Pins may be awarded to anglers for captures made in Australian waters and recorded in each of the various line classes according to the tables below.

GFAA shall design and control the issue of such Capture Merit Pins, which shall be engraved with the initials GFAA and be symbolic of the fish for which the award is made.

Club secretaries shall, by the authority of GFAA, order

and distribute Capture Merit Pins to club members who have submitted to them a written application supported by relevant Capture and Weight Recording Certificates. State branches shall advise GFAA by July 15 each year the number and each type of Capture Merit Pins so distributed.

Only one Capture Merit Pin for each species and for each line class may be issued to any one angler during any one year ending June 30.

It is recommended that Capture Merit Pins be presented at club annual general meetings, presentation of trophy evenings, or similar occasions.

Note: the cost of the Capture Merit Pins shall be borne by the angler.

Club secretaries note: to order Capture Merit Pins, contact Mackays Jewellers, PO Box 1113, Toowoomba (Qld), tel/fax (07) 4630 8737 or mobile 0419 709 229.

MERIT PINS FOR TAG AND RELEASE

Merit Pins may be awarded to tag and releases effected in Australian waters. The eligibility rating is listed below.

GFAA shall design and control the issue of such Merit Pins, which shall be engraved with the initials GFAA and may be symbolic of the fish for which the award is made.

Club secretaries shall, by the authority of GFAA, order and distribute Tag and Release Merit Pins to club members who have submitted to them a written application supported by relevant documentation. Details should include:

- (a) species of fish

- (b) dates of Tag and Release
- (c) serial number of tag cards submitted to NSW State Fisheries

State branches shall advise GFAA by July 15 of each year the number and each type of Tag and Release Merit Pins so distributed.

Tag and Release Merit Pins are retrospective to the start of record keeping by the NSW Fisheries Research Institute.

It is recommended that Tag and Release Merit Pins be presented at club annual general meetings, presentation nights, or similar occasions.

The cost of the Tag and Release Merit Pin

shall be borne by the angler.

Club secretaries note: to order Tag and Release Merit Pins, contact Colin Forrester Manufacturing Jewellers, Suite 12, First Floor, Globe Arcade, Wollongong (NSW), tel (02) 4226 3667.

Tag & Release Pins from Colin Forrester Jewellers: Bronze \$30.00 Silver \$39.00 Gold \$95.00 Merit \$100.00 all plus \$5.50 P&H - Prices include GST.

GFAA Patches

PATCHES FOR TAG & RELEASE

GFAA Tag and Release patches are available to anglers who qualify as follows:

- tag and release of five fish of three separate species, including sharks.
- tag and release of 10 fish of five separate species, including sharks.
- tag and release of 15 fish of five separate species, including sharks.

To qualify for the awards, the angler must submit the following:

1. species of fish
 2. dates of tag and release
 3. serial numbers of tag and card submitted to NSW State Fisheries
 4. cheque for \$11.00 (inc GST) for issue of patch
- Applications for Tag and Release Patches must be submitted through the angler's club. Note: no certificate will be issued.

PATCHES FOR BILLFISH TAG & RELEASE

GFAA Billfish Tag & Release patches are available to anglers who qualify as follows:

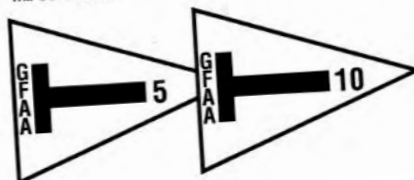

- tag and release of five billfish.
- tag and release of 10 billfish.

To qualify for the awards, the angler must submit the following:

1. species of fish
2. dates of tag and release
3. serial numbers of tag and card submitted to NSW State Fisheries

4. cheque for \$11.00 (inc GST) for issue of patch

Applications for Tag and Release patches must be submitted through the angler's club. Note: no certificate will be issued.

CAPTURE MERIT AWARD 10 TO 1, 15 TO 1, 20 TO 1

A GFAA certificate is available for any recognised gamefish species.

To qualify for the certificate the angler must submit the following:

1. an Australian Record Claim Form stating the club the claim is submitted for, (eg 20 to 1)
2. a cheque for \$27.50 (inc. GST) for the issue of the certificate.

1000LB (454.4KG) CLUB

A GFAA award is available for any recognised gamefish species.

To qualify for the certificate the angler must submit the following:

1. an Australian Record Claim Form stating the claim is submitted for the 1000lb club
2. a cheque for \$110.00 (inc. GST) for the issue of the cap and framed certificate.

IS FISHING WITH A DRONE LEGAL UNDER IGFA RULES?

Photo Credit: Regi Varghese. Gold Coast Bulletin

IGFA's International Rules state that "Outriggers, downriggers, spreader bars and kites are permitted to be used provided that the actual fishing line is attached to the snap or other release device, either directly or with some other material. The leader or double line may not be connected to the release mechanism either directly or with the use of a connecting device".

While the rules do not specifically mention the use of drones, the same intent of the rule applies - as long as the mainline is attached to a release clip that allows it to separate away from the apparatus (in this case, a drone) once the fish strikes, this would be IGFA legal as the device does not give the angler an unfair advantage with fighting the fish.
