YORK CIVIL

Delivering Infrastructure Solutions

York Civil offers complete engineering, construction and project management services throughout Australia. Our team comprises experienced personnel who continually deliver innovative solutions against project challenges, ensuring safe delivery, quality completion and value for money outcomes for our clients.

Differentiators

- Safety Focus
- Self-Performing
- Complex Projects
- Collaborative Contracting
- Remote Work

Capabilities

- Building
- Civil and Structural
- Demolition and Environmental Remediation
- Marine
- Mechanical and Electrical
- Rail
- Piling
- Pipelines

Market Sectors

- Power
- Resources
- Transport
- Water

York Civil maintains a workforce of over 350 personnel, over 500 major items of plant and equipment, and a dedicated network of contractors and suppliers, ensuring excellence in project delivery.

Our fundamental objective is to be an infrastructure delivery partner of choice. We have a track record in building long-term relationships with clients across the private and public sectors and our repeat work in numerous market sectors is testament to this.

(Est. 1937)

GFC of SA President
Ralph Czabayski
2014/15

Dear Members, welcome to the first edition of *the Pointer* newsletter for the 2014/2015 fishing season.

Since the last edition, the Annual General Meeting for the club has been held and a new group of committee members have been elected. They are as follows: myself as President, Rolf Czabayski - Secretary, Treasurer Steve White, Weight Recorder – Wayne Greenshields, Technical Advisor – Steve Morris and Committee Members Ches Detomaso, Shaun Ossitt, Renee Martin, Paul Wilton and Jerry Burr.

The Annual General Trophy Presentation Dinner was held at Ayers House and the night was a great success with 67 people attending.

It was great to see a lot of new faces and new members attending. The presentation dinner was held in a different function room at Ayers House and I and the Committee and a number of the members stated that the room was very accommodating. The trophies this year were very well selected by our Weight Recorder, Wayne Greenshields. Thanks to those people who donated prizes for the raffle and also to the people who rustled up dinner and various other vouchers. The raffle raised \$1395. For those members that didn't attend you missed out on a great night, put it in your diary for next year. Thanks again to the committee for all their hard work in setting the night up.

The next function coming up is the Club's Open Day which is held on Sunday September 28th on 'the Quarter Deck' at the Royal Yacht Squadron. So please once again put it in your diary and we look forward to seeing you all there. Also, the Port Lincoln Open Day is being held on Sunday 21st September in Port Lincoln so again we look forward to seeing a good number of our members attending.

The club is in good shape financially and has no debts apart from daily bills.

A reminder, if anyone is interested in taking out any advertising in *the Pointer* or becoming a sponsor of the club please contact myself on 0419 834 540 or Dianne on 8266 7703. In the event you need anything done around the house or your business, look at supporting our advertisers and sponsors by giving them your business.

Enjoy this next edition of *the Pointer* and try to remember to support any aspect of this great Club. Remember, if you have any pictures or stories you would like to share in our Newsletter please email Rolf Czabayski (rolf@esc.net.au) or Steve Morris (stevemorris@topshottackle.com) with your input.

Tight lines and Happy Fishing.

Ralph Czabayski
PRESIDENT GFCSA

* Important Notice to all Members *

The G.F.C. of S.A. started a historical photo album of captures of fish from members, fishing personalities and boat pictures from 1937, but it is not up to date and is incomplete.

We have photos from members back to approximately 1977.

I will make it my duty to update the album to the present date. I have already started to enter some photos and update the presidents photos, but I do need help, from you the members, who would like to be included in this Album, by sending me photos of your boat, special fish captures and any photos of interest from circa 1977 to the present.

Please state on back of photo, your name, date of capture, boat name and other relative information relating to the photo supplied.

Please send to clubs P/O box 95 Stepney 5069 S.A. Att. Rolf Czabayski, (Who is updating the album.)

GFCSA Dating Service Not Out Fishing the Tournaments !!

Because: ——— No! Boat
————— No! Crew to man the Boat

Problem Solved

Contact The Game Fishing Club Dating Service Steve Morris 0407 280 323 or
email stevemorris@topshottackle.com with the problem

To be Out Fishing in Double Quick Time

Hey! Not Just for the Tournaments Either

Notes : To all Club Members with Trailer Boats

Any GFCSA Club Member with a Trailer Boat wishing to use the excellent and secure Boat Ramp facilities at the RSAYS can do so by Obtaining the necessary passes & permits from the RSAYS reception Office during business hours, for cost of only \$276.00 per year, you must present your current GFCSA membership card to do so, front gate access keys can also be obtained at the same time, for \$25.00 per year, this along with your Permits will give you and your vehicles full 24/7 access to the boat ramp and faculties within the club grounds.

"Well worth the cost, just for the added security of knowing your gear is safe & cheap when you consider the alternatives and costs of using a public boat ramps with on security especially if you use your boat on a regular basis.

Important up coming events

Dates & events to take note of :

- * Xmas Party For **Adelaide** Sunday the 7th of Dec 2014
- * X-Mass Party for Port Lincoln Sunday the 14th of Dec 2014.
- * 15th Oct 2014 Tackle Night in Adelaide at the Club rooms
- * 14th Oct 2014 start of the Snapper & Kingfish Challenge
(See more details page 22)

Have you Got a Copy Yet!!

The 75 Year History of The Game Fishing Club of S.A. if not contact Club Secretary Rolf Czabyski on M. 0408 364 488 members will be intituled to obtain one copy at a cost of \$50.00 none members & any additional copies will be at a cost of \$60.00

GFC of SA Treasurer
Steve White
2014/15

Financial Year 2013 - 2014

The year was a steady year for the Club, with a surplus after all adjustments of \$4,512 compared to \$7,509 last year. The Club ran the Port Lincoln Blue Water Classic at a deficit, largely explaining the dip in surplus despite an increase in revenues.

Peter Teakle has generously offered to sponsor the PLBWC for \$5,000 a year for the next three years and it will henceforth be known as the Peter Teakle Port Lincoln Blue Water Classic.

I was able to participate in the tournament as part of the ground crew and found it a very enjoyable few days in a beautiful part of South Australia, with excellent company and plenty of fishing stories. And just to prove you don't have to have a 15 metre boat and a bank balance to match to do well in the tournament, trailer boat Just A Girl cleaned up.

We hope that many more of you can attend the event in 2015 and beyond.

Profit and Loss

Whilst Membership Fees were slightly down on the previous year, Tournament Entry fees were up, resulting in a 5% increase in revenues overall.

The club continues to sell good quality merchandise with details available on the website. Apart from the usual cost of living adjustments to rent, most costs were on par with previous years; the exception being the Tournament costs as a result of the Club investing in tents and other one-off items for the Classic. As a result, overall expenses rose by about 12% compared to last year.

The club recorded a small surplus over the year.

There were no liabilities beyond the normal day-to-day running costs.

Summary:

A good steady year for the club. The continuing accumulation of cash reserves is based on a premise many years ago that should land become available for purchase from RSAYS, the club could buy it and build new clubrooms.

Steve White

Treasurer GFCSA

Wayne Greenshields
Club Weight Recorder
2014/15

Hi Everyone,

I thought it fitting with the recent Annual Presentation dinner at Ayres House to recap the season that was 2013-14.

It was a year that saw a number of trailer boats join the fleet and along with our strong over 25ft fleet helped record some great captures.

In summary members recorded no less than 593 fish across 17 species in total (In all divisions and categories). Listed below are some of the major feats:

Bruce Baddelly's	26.5kg Wahoo (<i>Caught at Lord Howe Island</i>)
Shaun Ossitt's	23.2kg Mulloway & 29.5kg Kingfish
Ralph Czabayski's Billfish tagging category	With 6 -Black Marlin, 1-Spearfish 1- Atlantic Sailfish and 1-Pacific Sailfish
Rolf Czabayski's Heaviest Billfish capture	172kg Blue Marlin
Sam Czabayski's	23.5kg Pacific Sailfish (<i>A Junior Record Fish</i>)
Mick Dawe's	31.8kg Southern Blue Fin Tuna
Jerry Burt	11.4kg Snapper
Chris Earle's	37kg Eagle Ray
Dilip Kapour's	42kg Bronze Whaler Shark
Junior Ben Kapour's	48kg Bronze Whaler & 34kg Eagle Ray
Junior Max Forster's	23.5kg Eagle Ray
Highest Point Scoring Boat Over 25ft Category	<i>Galaxy Star</i> - 71,296 pts
Highest Point Scoring Boat 25ft & Under Category	<i>Justagirl</i> - 8,818 pts
Highest Point Scoring Angler Over 25ft Category	Rolf Czabayski - 24,294 pts
Highest Point Scoring Angler 25ft & Under Category	Shaun Ossitt - 4,017 pts
Champion Junior Angler	Ben Kapur
Champion Lady Angler	Tracey Tito

In addition to the above , Bob Hill, Rolf and Ralph Czabayski represented the GFCSA at the 2014 **HIBT** (*International Billfish Tournament*). In Kona Hawaiian. I won't spoil their thunder, but be sure to check out their full article on the following pages.

So far this season, very few recordings have passed my desk. At the moment a few Eagle Ray's and a lone Rainbow Trout sum things up. So get out fishing, recording and enjoying this beautiful spring weather.

Wayne Greenshields

York Civil All Species Challenge 1st July to 31st Oct 2013

Award Criteria & Categories that where on Offer for the Most All species Challenge 2013

The Most GFAA Species Reordered by an Angler will be the winner

This is scored on the Anglers best total highest score of each species reordered by the angler

ALL ABOVE CRITERIA WAS FOR ALL CATEGORIES and ALL DIVISIONS

BOUNDARIES & RULES WHERE

All Waters — All GFAA Line Classes — GFAA Equipment Rules Apply

(There must be more than one competing in any one category, criteria or division to win that category, criteria or division)

Final Results Table

CATEGORIES WON	ANGLER NAME	No. of FISH SPECIES
Most GFAA Species Recorded during the Challenge by a Senior Angler	Shaun Ossitt	2
Most GFAA Species Recorded during the Challenge by a Junior Angler	Ben Kapur	2
Most GFAA Species Recorded during the Challenge by a Lady Angler	Bonnie Coulls	2

THERE WERE NO RECORDING RECEIVED FOR ANY CRITERIA or CATEGORY NOT LISTED IN ABOVE TABLE

PORT RIVER MARINE SERVICES

SOUTH AUSTRALIA'S "PREFERRED DESTINATION"

Within close proximity of the RSAYS, Port River Marine Services is located directly on the banks of the Port River, providing deep water access to its Straddle Carrier wharf & Wet Berths. Catering for vessels ranging from Personal Water Craft to Larger craft (up to 80ft in length), our on-site staff & facilities offer owners a comprehensive & experienced range of professional services for all their maintenance and refit needs.

SERVICES

- ANTIFOULING , PROPSPEED, ANODE REPLACEMENT
- POLISHING & DETAILING
- SPRAY PAINTING, GRIT BLASTING
- TEAK DECKING (REPLACEMENT & MAINTENANCE)
- FIBREGLASS & GELCOAT REPAIRS
- RUNNING GEAR REPAIRS (CUTLESS BEARINGS, SHAFT SEALS ETC)
- VESSEL MODIFICATIONS
- MAST REMOVALS & INSTALLATIONS
- EQUIPMENT INSTALLATIONS (ELECTRICAL & MECHANICAL)
- COMPLETE PROJECT MANAGEMENT or DIY
- MOBILE SERVICES – WE COME TO YOU
- ON-SITE MARINE BROKERAGE
- WE WILL MATCH ANY WRITTEN QUOTE (conditions apply)

FACILITIES

- 70 TON STRADDLE CARRIER
- ON SITE FORKLIFT & CRANE
- SHORT TERM & LONG TERM HARDSTAND AVAILABLE (up to 50 vessels)
- WET BERTHING FACILITIES
- KEEL PIT

Come and SEE us for special OFF SEASON RATES & PACKAGES

STAR ELECTRICAL WILL MAKE YOU SHINE

When it comes to the electrical component of building or renovating, Star Electrical has been helping South Australians shine for over 30 years.

Inspired by the vision and commitment of Managing Director Ralph Czabayski, we work closely with clients and some of the state's finest builders, to guarantee the highest quality workmanship and customer satisfaction.

Star Electrical can design the internal and external electrical plans for your new home in full consultation with you. So, if you're thinking electrical and you want to make a great impression, add significant value to your home with the best choices available.

R E P A I R S

“How do I know if my line will break at the said breaking strain?”

I asked this question of Peter Babarskas from Western Australia recently. Peter is G.F.A.A.’s official line tester. Using the table of specifications of name brand lines and their diameters he measures the line to determine if that particular line is within the breaking strain measurements. To test a line he soaks it in distilled water for 2 hours before testing occurs. It is placed on a machine that pulls the line till it breaks and records this measurement. This is done a minimum of 3 times and no more that 5 times. The end result is averaged and the breaking strain of that line is classified.

For record claims the angler must specify which line class they are applying for and that determines the test results. It must break under the applied line class and above the line class below.

The chart below has the line diameter measurements of the most popular game lines. With Tuna season just around the corner it will be time to check you gear and line. Check that the line is not too old and been effected by the UV rays while in storage. It would be a pity to miss out on an Australian or State record by not checking. The club has a line testing machine that will give you a guide as to what the line on a reel is classed if you have forgotten. This is inside the club rooms and as I said it will be a guide only as it is not certified or measure the line diameter if you know the brand name.

Line Manufacturers Pretest Line Diameter Specs

Rolf Czabayski
IGFA Rep

H.I.B.T.

The team entered by John Johnston on behalf of the Game Fishing Club of SA just recently returned from the H.I.B.T. (Hawaii International Billfish Tournament) with great results. The Team leader Rolf Czabayski, Angler Ralph Czabayski and Bob Hill. (Read Article by Bob Hill in this addition of *the Pointer*)

Satellite Tagging Reveals Interesting Behaviour of Pacific Blue Marlin

By Jason Schratwieser IGFA Conservation Director.

Satellite tags are greatly enhancing our body of knowledge on Billfish behaviour due to their ability to collect massive amounts of data and because they do not need to be recovered to obtain the information they collect.

Since the start of the I.G.F.A. Great Marlin Race (IGMR), we have placed 116 tags on blue marlin, black marlin, white marlin and sailfish during 19 events held in 13 countries. Although we are still in the early stages of analysing the large IGMR data set, we'd like to share some of our preliminary findings. We have learned that the blue marlin tagged at all IGMR races exhibit a consistent pattern in their depth distribution.

The Marlin spend the majority of their time (around 60%) in the top 5-10 meters of the water column and when they are not near the surface, they primarily occur between 50-100 meters below the surface.

At the Hawaii International Billfish Tournament in Kona Hawaii (the longest running IGMR event), tagged marlin have consistently exhibited this bimodal depth distribution across all of the five years of races.

The depth range of blue marlin is likely constrained by the thermocline-the boundary between relatively warm surface water and deeper, colder water below. This is likely due to that fact that blue marlin are quite temperature-sensitive (they rarely are in waters less than 26 degree C and they are unable to spend long periods of time below the thermocline).

However, blue marlin do make periodic deep dives to depths in excess of 300 meters, but these forays into colder, deeper waters are generally brief and the marlin quickly return to the warm surface layer after these deep dives.

This bimodal depth distribution likely represent a diet (day/night) pattern, where fish generally dive deeper and spend more time at depth during the day and remain near the surface at night.

One theory behind this behaviour is that the marlin are highly visual predators and they dive deeper during the day so they can better see their prey, silhouetted at the surface, while remaining invisible to them below.

These are some of the preliminary discoveries that we have made during the last several years, We are also beginning to understand broader patterns in migratory behaviour that appear to be linked to major oceanographic processes such as El Nino and La Nifia events.

As we delve deeper into this dataset, and amass more data in other regions, new insights will be gained into the biology and ecology of these important pelagic species in the months and years ahead.

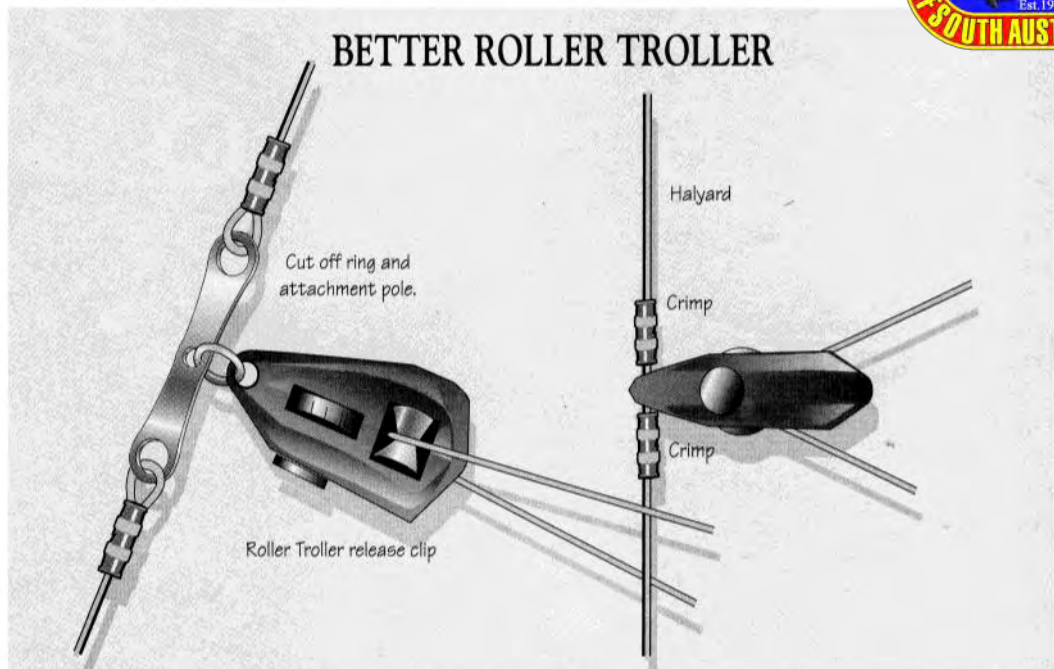

Tackle Tips

No-Spin Zone

One thing that amazes most novices to our sport is how we can troll so many lines without tangling everything up. To the uninitiated, the outriggers and their corresponding pulleys and guy wires look like a vast tangle of spiderwebs. The truth is that we don't always keep all the lines from tangling — we just work hard to keep things as straight as possible.

One of the first places that tangles occur is around your halyard clips, especially when using a Roller Troller clip with light lines and small baits. However, all clips will tangle up on you from time to time, particularly when there's not a lot of tension on the line running through the clip.

One thing you can do to help eliminate the spin is to modify the Roller Troller and the way you attach it to your halyard.

Roller Trollers come with a small steel bar that you normally use to attach the clip to the halyard with a pair of snap swivels. The

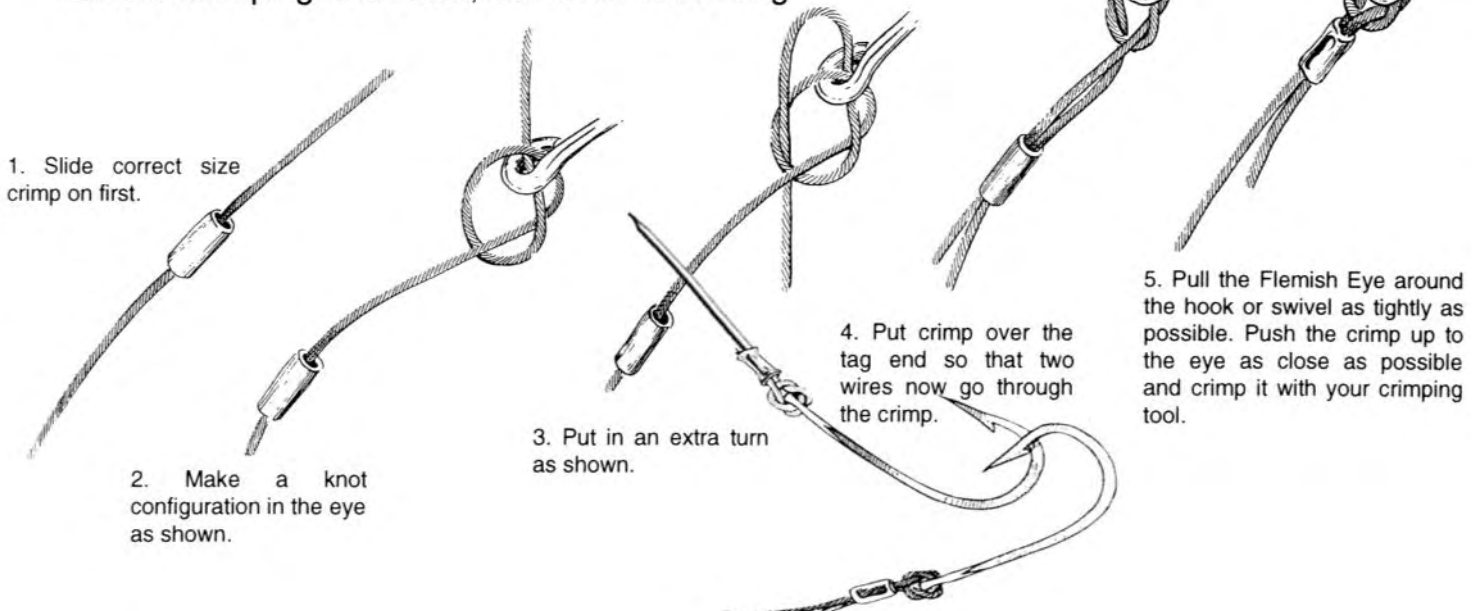

metal bar connects to the clip via a small metal ring. Cut the ring and remove the metal bar. This leaves a small hole in the clip that is just about the diameter of a regular mono halyard.

All you have to do is slide the Roller Troller directly onto the halyard

line, securing it in place with one crimp above the clip and one crimp below it. This actually keeps the clip aligned perfectly for a clean release, and it won't spin a lick.

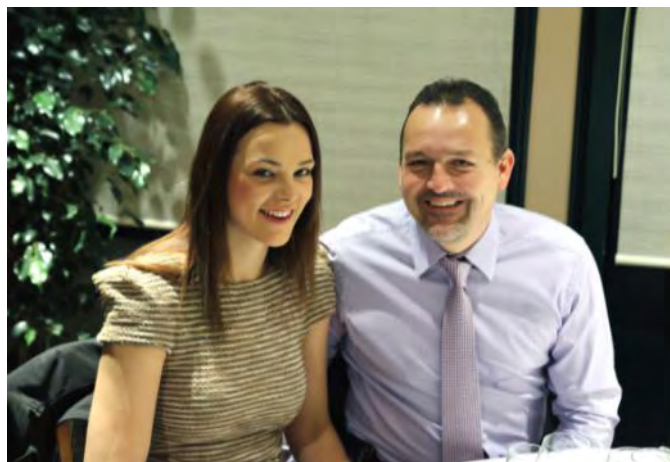

FLEMISH EYE

Choosing the Right Hook:

A Tip from the IGFA School of Sportfishing

Your hook can be the most important piece of tackle you use, but finding the right one for a given application can be a confusing proposition.

Circle hooks are a great choice for most situations as they can be incredibly effective at increasing hook-up ratios, while also acting as a conservation tool.

However, in order to maximize your success with them, it is important to understand a few things.

One consideration is that, unlike J-hooks which are more standardized, the shape, style, and size of circle hooks can vary widely by manufacturer. A 5/0 hook from one manufacturer may not be the same dimensions as a 5/0 hook from another. Hooks can vary by gap size, thickness of the metal itself, and length of the shank.

Some hooks are slightly offset at an angle, while others vary by the size of the eye.

It is also beneficial to know as much as you can about which hook works best with the fish you are targeting before you drop it in the water.

For example, if you are targeting large tarpon- a fish with relatively thick jaw bones- you want to ensure that the circle hook you choose has a gap sufficiently large enough to fit around the jaw.

Otherwise, the hook may not be able to find the "sweet spot" in the corner of the jaw and penetrate properly.

All of these differences should factor into the hook you are choosing and the preferred hook will depend on what you are fishing for

The IGFA School of Sportfishing is offering a new session of classes, beginning with the Fundamentals of Sportfishing on and can be found on the IGFA web site. Click on and learn the inside tips, techniques, and strategies that will allow you to catch more fish!

For several years Rolf has been trying to convince me to join him and Ralph at the HIBT in Hawaii. After a couple of false starts on my behalf, I finally committed to join them as part of the South Australian Game Fishing Team, which was kindly sponsored by "Jonno" Johnston.

I would like to thank all of you, as it was a fun event. I couldn't believe that this event has been run by one man Peter S. Fithian for the last 55 years and he still runs a great tournament, albeit that the hula girls kept us in the sun a little too long on the opening day!

Bob with 209lbs of Yellowfin Tuna

Day one

Was on the boat Nasty Habits, run by David Younger. We set the lines South Australian Style with Ralph's new Reels & 50 lb line. I noticed a couple of curls in the new line, so decided to wind the line in & reset it with a small pinkie lure a long way back- 500 meters to straighten the line!

After retrieving about 100 meters of line, a very large tuna jumped on the pinkie. Twenty nine minutes later we boated the tuna with a red hot reel as a result.

The tuna turned out to be 209 lb and the biggest fish of the tournament. Rolf, you looked the part with your blue Bushranger mask but dropped about a 200lb Marlin when he through the hook- bad luck.

New GFCSA Member Bob Hill

Day two

Hot & uneventful no marlin! Day three I took a sickie without approval from the team Captain. I understand you and Ralph had a nice boat trip but no bites!

Day Four

We had Medusa, an older boat but experienced Captain and crew. We had a nice 600lb blue hit the left lure on Rolf's watch, it jumped all over the ocean and then threw the hook! Bugger.

Rolf had a other 200lb Blue Marlin on 50lb line on his next watch smash the lure & Ralph tagged this one with the Satellite Tag which he purchased with such vigour that it seemed that the tag was going right through the right shoulder of the 200lb Marlin.

Day Five

The oldest boat in the Tournament, a 41 foot Hatteras 47 years old. The skipper David a lot older! He knew where the marlin were feeding and we ended up tagging Bob's Blue Marlin and Rolf again hooked up on a 280lb Blue Marlin which was also Tagged followed by Ralph Czabayski Jnr with Striped Marlin about 150lb and close to end of the day Ralph caught a 176lb Yellow Fin Tuna, this was our best day, coming from 15th up to 4th place in the Tournament out of 34 Boats only 80 Points short of Winning the third place.

Congratulations Rolf & Ralph- we had a great time and hope we can make it again next year representing the SA game fishing club.

*Cheers,
Bob*

BROOME SAILFISH HUNT

As three Czabayski boys, Rolf, Ralph and Sam we planned a Billfish trip to Broome in search of Sam's first Billfish capture or tag and release.

We fished with Maikaira Game Fishing Charters, Captain, Jeda Ellens on his new Contender 33.

We all arrived in Broome and straight away changed into our shorts as the weather was pushing 33 degrees and humid. We arrived in the early evening and the next day was straight into the fishing.

Our captain Jeda, met us on cable beach and took us out by dinghy to his boat. We had a safety briefing and headed out to the fishing grounds.

It took us about an hour to reach the grounds and we started trolling. We had a game plan and basically that was for Sam to take the first strike and then for Rolf and myself to take the second and or third strike.

We were trolling for about an hour or more and sure enough we had a Sailfish bite on the line and Sam was into action.

The Sailfish was jumping trying to throw the hook but Sam kept the line nice and tight and within about 15 minutes we had the first Sailfish tagged and released.

We were all excited as this was Sam's first billfish and I must admit he fought the fish as if it was his hundredth billfish. He was a "chip of the old blocks" (Rolf and myself). Sam did a great job!

We got the lines straight out and sure enough another hook up. Sam took it again but this time on 8kg line as we were going for a Junior State Record. We needed the sailfish to be over 20kg.

When we got it to the boat we realised that this fish could be the 8kg line record breaker. We measured the length of it and yes with Jeda's and Rolf's experience we decided to boat it and later on weigh it at the Broome Game Fishing Club.

We had another two strikes that day, one that Sam lost as the hooks were spat out on one of the many spectacular jumps that these fish do and sure enough Rolf beat me to the other rod where Rolf tagged and released a smaller Sailfish. What a great day of fishing on our first day.

We headed back to Cable Beach and when we arrived, we loaded Sam's Sailfish into the dinghy and then pulled the dinghy out and headed to the Broome Game Fishing Club.

What a great clubroom it was with a view of the ocean to die for.....what a great location. The weight recorder of the club met us there and sure enough we weighed the fish and yes it was a new pending junior state record. The fish weighed 21kg.

We were stoked and drinks all round....."Ralph's shout". Yes, believe it or not, they (Broome Game Club) have a very well stocked bar. Again, what a clubroom.

By this time a few more members rocked up to witness this great catch and a few more drinks were consumed and then off to the local pub for a meal and then off to bed and ready for the next day.

Day two, and we went back to the same spot but the fishing was a bit slow, the bite had definitely slowed down.

Rolf tagged and released a sailfish. I had one on but it spat the hooks and believe it or not Sam hooked another sailfish but this time on 15kg line and again the fish had to weigh over 20kg for another junior state record.

Could we be so lucky because in Broome the sailfish are usually not 20kg plus. Sure enough it looked like a good size fish. We got it to the boat and we think it was a bit bigger than the one from yesterday so we put it in the boat ready to weigh at the end of the day.

Nothing else was caught that day. We ended up going back to Broome Game Fishing Club to weigh the fish for a pending 15kg line junior record.

It was a bit embarrassing as there was a crowd of people and they all knew we were only here yesterday.

Sure enough it weighed 23.5 kg and it broke the existing record. How lucky was Sam, two pending junior state records in one trip. Once again the drinks were flowing – how lucky were we.

Jeda, the charter boat captain, once again put us on the spot. He did a great job and it is a big effort to take the fish and weigh it. There is a lot of paperwork, pictures and certain procedures to follow, but we did it.

Last day, the bite had really dropped off and I was the only one who hadn't caught a fish, but luckily my luck changed and I tagged the next sailfish. Day 3, we only had one strike and we tagged and released the sailfish.

What a great trip – two pending junior records, two tag and releases for Rolf, and one tag and release for me and one for Sam – 6 fish for the trip.

What a great trip and it was great to have the three generations of male Czabayski's together.

The only one missing was 4th generation Czabayski, Harry, but he is only 3 ½ so there is still time to get the 4 boys together on a fishing trip.

Once again, Maikaira Game Fishing Charter Captain, Jeda, what a great operator. I would recommend to any of our members to fish Broome with Jeda.

Tackle Tips

PILCHARD RIG - WITH HOOK FROM BELLY

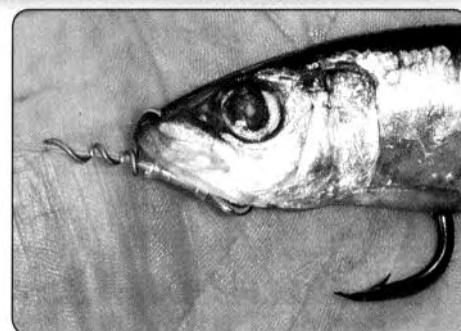

There are pilchards and there are pilchards! For baits, pilchards need to be in top condition, with a bright shine to them, bellies intact, and without discolouration. Also, ensure that the throat latches aren't broken, as this makes successful rigging all but impossible.

Step 1

Insert the hook point underneath the gill plate.

Step 2

Ease it back down into the fish's belly, coming out roughly between the pelvic fins. Tuck the hook eye and crimp under the gill plate to conceal them. Now push a 10cm length of copper or soft stainless wire (that has been twisted to the hook's eye) up through the pilchard's nose and then back down and around the hook. Twist the copper wire up the leader and trim off.

MERIT PINS FOR CAPTURE

Merit Pins may be awarded to anglers for captures made in Australian waters and recorded in each of the various line classes according to the tables below.

GFAA shall design and control the issue of such Capture Merit Pins, which shall be engraved with the initials GFAA and be symbolic of the fish for which the award is made.

Club secretaries shall, by the authority of GFAA, order

and distribute Capture Merit Pins to club members who have submitted to them a written application supported by relevant Capture and Weight Recording Certificates. State branches shall advise GFAA by July 15 each year the number and each type of Capture Merit Pins so distributed.

Only one Capture Merit Pin for each species and for each line class may be issued to any one angler during any one year ending June 30.

It is recommended that Capture Merit Pins be presented at club annual general meetings, presentation of trophy evenings, or similar occasions.

Note: the cost of the Capture Merit Pins shall be borne by the angler.

Club secretaries note: to order Capture Merit Pins, contact Mackays Jewellers, PO Box 1113, Toowoomba (Qld), tel/fax (07) 4630 8737 or mobile 0419 709 229.

MERIT PINS FOR TAG AND RELEASE

Merit Pins may be awarded to tag and releases effected in Australian waters. The eligibility rating is listed below.

GFAA shall design and control the issue of such Merit Pins, which shall be engraved with the initials GFAA and may be symbolic of the fish for which the award is made.

Club secretaries shall, by the authority of GFAA, order and distribute Tag and Release Merit Pins to club members who have submitted to them a written application supported by relevant documentation. Details should include:

- (a) species of fish

- (b) dates of Tag and Release

- (c) serial number of tag cards submitted to NSW State Fisheries

State branches shall advise GFAA by July 15 of each year the number and each type of Tag and Release Merit Pins so distributed.

Tag and Release Merit Pins are retrospective to the start of record keeping by the NSW Fisheries Research Institute.

It is recommended that Tag and Release Merit Pins be presented at club annual general meetings, presentation nights, or similar occasions.

The cost of the Tag and Release Merit Pin

shall be borne by the angler.

Club secretaries note: to order Tag and Release Merit Pins, contact Colin Forrester Manufacturing Jewellers, Suite 12, First Floor, Globe Arcade, Wollongong (NSW), tel (02) 4226 3667.

GFAA Patches

PATCHES FOR TAG & RELEASE

GFAA Tag and Release patches are available to anglers who qualify as follows:

- tag and release of five fish of three separate species, including sharks.
- tag and release of 10 fish of five separate species, including sharks.
- tag and release of 15 fish of five separate species, including sharks.

To qualify for the awards, the angler must submit the following:

1. species of fish
 2. dates of tag and release
 3. serial numbers of tag and card submitted to NSW State Fisheries
 4. cheque for \$11.00 (inc GST) for issue of patch
- Applications for Tag and Release Patches must be submitted through the angler's club. Note: no certificate will be issued.

PATCHES FOR BILLFISH TAG & RELEASE

GFAA Billfish Tag & Release patches are available to anglers who qualify as follows:

- tag and release of five billfish.
- tag and release of 10 billfish.

To qualify for the awards, the angler must submit the following:

1. species of fish
 2. dates of tag and release
 3. serial numbers of tag and card submitted to NSW State Fisheries
 4. cheque for \$11.00 (inc GST) for issue of patch
- Applications for Tag and Release patches must be submitted through the angler's club. Note: no certificate will be issued.

CAPTURE MERIT AWARD 10 TO 1, 15 TO 1, 20 TO 1

A GFAA certificate is available for any recognised gamefish species.

To qualify for the certificate the angler must submit the following:

1. an Australian Record Claim Form stating the club the claim is submitted for, (eg 20 to 1)
2. a cheque for \$27.50 (inc. GST) for the issue of the certificate.

1000LB (454.4KG) CLUB

A GFAA award is available for any recognised gamefish species.

To qualify for the certificate the angler must submit the following:

1. an Australian Record Claim Form stating the claim is submitted for the 1000lb club
2. a cheque for \$110.00 (inc. GST) for the issue of the cap and framed certificate.

Congratulation to young Sam Czabyski who finished off his 2013-14 Season with not just a few Pending Sailfish Records but also winning the clubs "John Johnston" Junior Billfish Trophy
Well done Sam!

Welcome to the Junior Pointer Section.

This section will be dedicated to report and inform the Junior members of the club with the on going activities of other Juniors within the club and is specifically designed for our Junior members.

This will include fishing information (*HOPEFULLY!*) pictures of other juniors activities with the periodical introduction of prize incentives to encourage the younger anglers in our club to participate. So keep your eye on this page for what might be going on. Good fishing and safe boating!

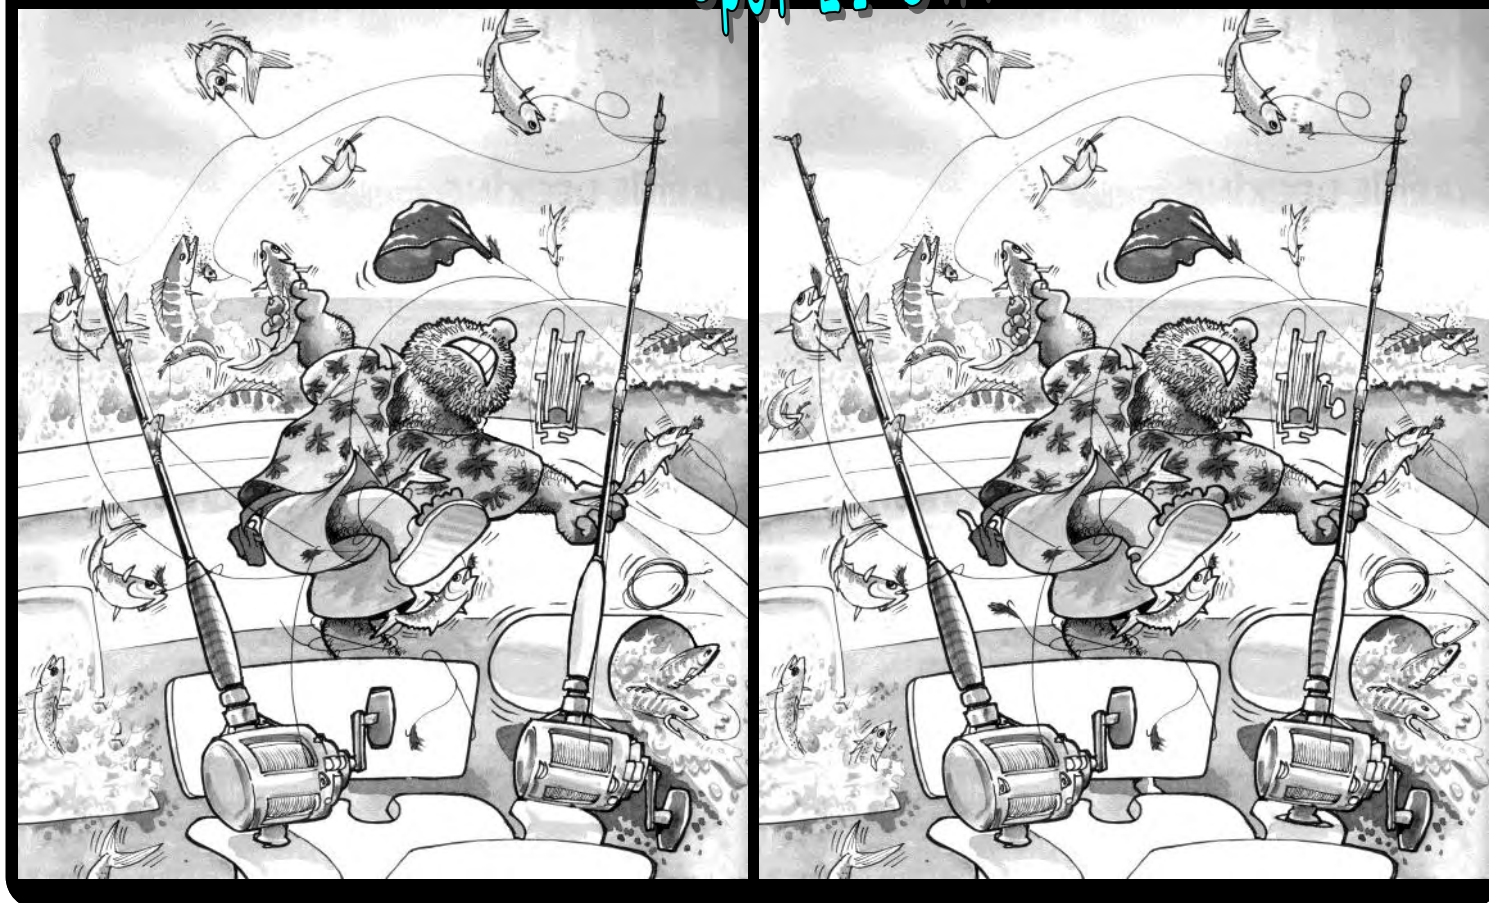

Congratulation also to young junior angler Ben Kapur he finished off his 2013-14 Season as the GFCSA Junior Champion Over all plus a number individual of species trophies in both the Over 25ft & the 25ft & Under Categories
Well done Ben!

Ben & his father Dilip Kapur pictured here with a nice Samson Fish that was caught off the back of Ron Forsters boat "Long Shot"

IGFA Q&A: Tackle Tip

RESTING OR SUPPORTING YOUR FISHING ROD?

Q: IGFA rules state that "Resting the rod in a rod holder, on the gunwale of the boat, or any other object while playing the fish" is illegal. However, can an angler kneel on the deck of the boat and rest his/her arms but not the rod on the transom?

A: Even though the angler is technically not resting the rod itself, this act would be considered illegal. The intent of this rule is that the angler, and not another object, bear the strain of the fish.

Q: How is this different from using a harness or fighting chair?

A: Whether in a standup or bucket harness, the angler bears the entire burden of the fish.

MV TOP GUN

For Sale

Comments

"TOP GUN" is a 42' offshore sports fishing cruiser professionally designed by a naval architect in 1989. Constructed for its only owner from special order mahogany plywood 3 X 7 ply topsides and 4 X 7 ply beneath the waterline. All the timber was sealed with 200 litres of west epoxy and the corners were sheathed for ultimate strength. "TOP GUN" deserves its enviable reputation as one of the flagship vessels of the SA Game Fishing Fleet and has confidently ventured many times into waters where records and boats get broken! She has a cockpit that rivals many 50' to 60' footers and has been enjoyed by Greg Norman for private charter where he captured a couple of monster Great White sharks. This 8 berth, air-conditioned, dual stationed cruiser is a true "go anywhere" boat. If you are serious about your requirements for offshore fishing or economical coastal cruising this vessel is a must to inspect. She has been excellently maintained and updated since she was launched and is powered by twin Iveco 375 HP diesels making her quick, yet economical. The inventory is far too extensive to list here but its a case of , you name it, she's got it.

Please contact: **SAM ROCCATTI 0418 816 902**

FOR SALE

40ft AM Classic White Cap

Consider swap for smaller boat and cash

The screenshot shows the homepage of the Game Fish Club of South Australia (GFC of SA) website. The background is a photo of a boat deck with fishing equipment. Overlaid on the center is a white box with the text "Check it Out!" in large, bold letters. Below this, it lists "UP COMING EVENTS" including "Club Christmas BBQ" and "Snapper / Kingfish / Salmon Challenge". The website has a navigation menu on the left with links like Home, About Us, Contact Us, etc. On the right, there are logos for club sponsors and a Facebook link.

Would you like to have your Fishing Photos in your own folder on Our Web-Site ?

We would like you to share your fish photo's in the picture gallery on our club web site ?

SNAPPER

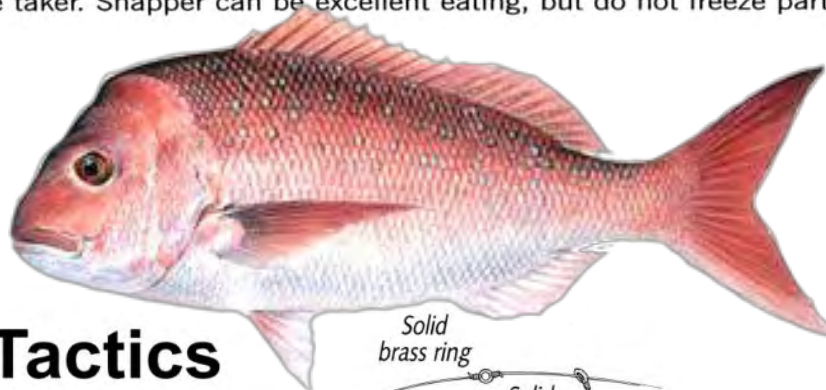

Scientific name *Pagrus auratus*. (formerly *Chrysophrys auratus*) Also known as schnapper, Pink snapper and pinkie. With increasing size known as Cockney bream, red bream, squire, snapper and ultimately 'old man snapper' with the characteristic hump.

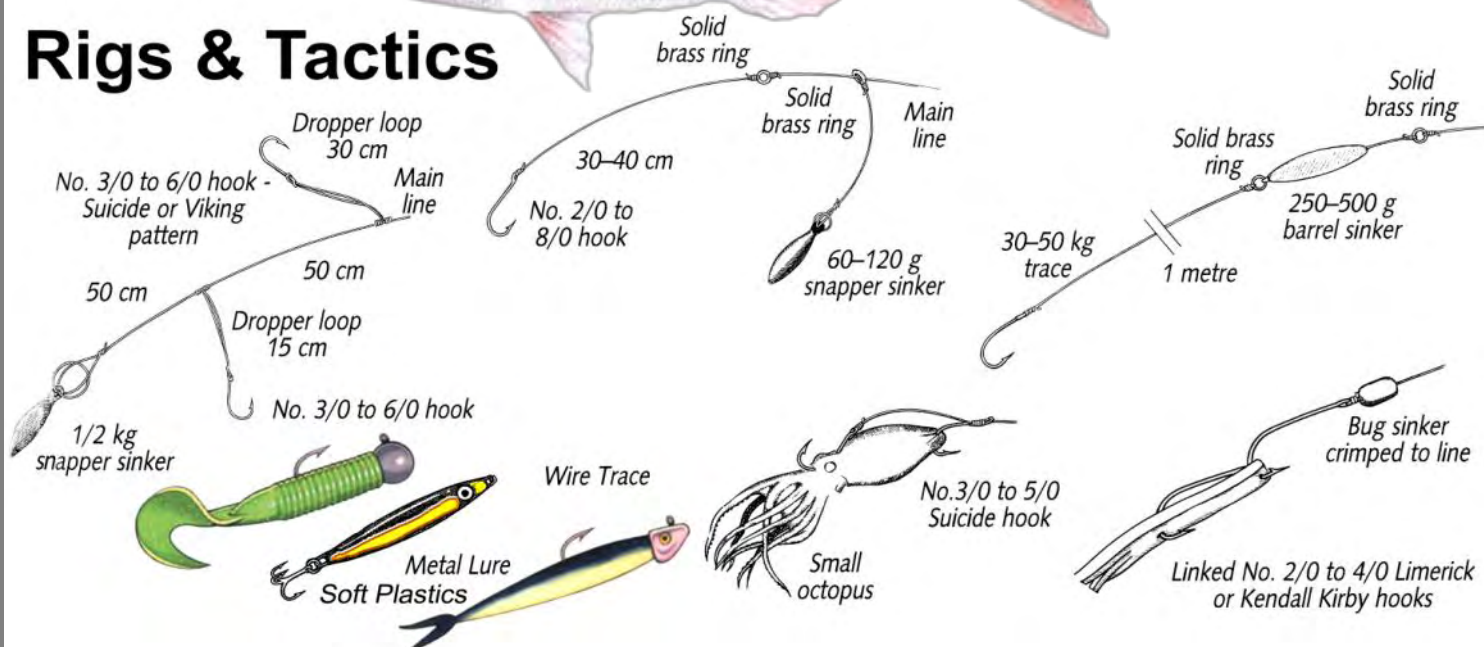

Range Snapper are common in southern waters and range from Coral Bay in Western Australia to the Capricorn Group in Queensland.

Description A truly stunning and highly sought after species, the snapper can have iridescent pink to burnished copper colouration with bright blue spots from the lateral line upwards which are brightest in younger fish. A hump on the head and nose area develops in some fish and is more likely in male fish. Snapper are relatively slow growing and mature at 29 to 35 cm and four to five years of age. Snapper numbers have been affected by both commercial and recreational overfishing. Prawn trawl by-catch and anglers gut hooking juvenile snapper in places like Botany Bay in NSW have contributed to the reduction in quality snapper fishing on the east coast in recent years. Recreational over-fishing in the eastern gulf of Shark Bay has affected one of the best snapper fisheries in Australia.

Fishing Snapper are traditionally taken on bottom paternoster rigs with the famous snapper lead. Snapper prefer the edges of reefs or broken ground and can be taken from the shore or as deep as 50 fathoms. Drifting over broken ground or drop-offs at the edges of reefs with just enough weight to bounce bottom will find fish and repeated drifts will pick up more fish. Like many reef species, snapper form schools of similar sized fish, with the size of the school decreasing with larger fish. In late winter on the east coast, snapper move inshore to feed on spawning cuttlefish and large fish can be taken from the rocks on cuttlefish baits. In Western Australia, snapper form large schools in winter in Shark Bay and around October in Cockburn Sound. Quality snapper can be taken by sinking a bait under a feeding school of tailor, salmon or small mackerel, feeding on uneaten baitfish. Good catches can also be made fishing washes at the backs of breaking reefs, frequently mixed with tailor, bream and other fish. Best baits for snapper are pilchard, bonito, squid, cuttlefish, octopus and yellowtail. Snapper respond well to berley and will rise in a berley trail to take lightly weighted or unweighted baits. In shallow waters, snapper are a magnificent fighting fish. Recent tagging research indicates that many snapper are residential, so letting fish go, or moving on to take other species means that the fish you leave are likely to be there at a later date. Snapper are also taken on leadhead or vertical jigs, especially tipped with a piece of fish or octopus. Snapper are taken while trolling, particularly around bommies or reef with minnow and feather lures working well. Like bream, snapper are being increasingly recognised as a lure taker. Snapper can be excellent eating, but do not freeze particularly well.

Why shouldn't the boats most able to raise fish also be able to raise your spirits?

Over 30 years, Riviera have established something of a benchmark in production fish boats.

The brand's high level of presence in tournaments around the world bears this out.

As does strong owner loyalty to an impressive 18 vessel range that includes a collection of 12 Flybridge and two Offshore Express models.

Each come standard with spacious cockpits, large fish bins embedded in the cockpit floor, internal rod storage lockers, live bait tanks and toe kicks in all the right places.

These boats are all strong platforms upon which you can build your ideal battle wagon; adding fishing tower, outriggers, bolsters, rod holders, tuna tubes, teak coamings and even more tackle lockers.

But what you also get as standard with any Riv is a very high level of style and luxury.

Flowing entertainment areas; gourmet galleys; expansive master and guest suites; designer bathrooms; and smart systems that spoil you

with exquisite sound, vision, climate control, even lighting.

All presented within interiors swathed in supple leather, glossy timber, polished granite, plush pile and fine fabrics.

A trend which will only intensify as owners continue to become just as interested in cruising, family, friends and the whole work/life balance.

Does such indulgence lessen a boat's fishing potency? Must a good fish boat be all stripped out and spartan? Should you have to suffer for fishing success?

This is not *The Deadliest Catch*. Your pride might be at stake, but not your livelihood.

And isn't a successful angler more likely to be one who's well fed, watered, rested and relaxed?

You can have your fishcake and eat it too.

See both sides of the Riviera range, either on the marina at your Riviera dealer or online at www.riviera.com.au
